A Publication of Cuyamaca College Ornamental Horticulture Department and the Cuyamaca College Botanical Society.

Summer/Fall 2007

Volume 23 Number 2

## Calling All Landscape Designers!

By Cynthia Koll

Have you completed Cuyamaca College's Landscape Design courses, or are you currently enrolled and want to put your learned skills to the test? Well, now is your chance! The Cuyamaca College Botanical Society (CCBS) and the Cuyamaca College Ornamental Horticulture (OH) Program are sponsoring a design competition for the OH Courtyard.

For the first time in the history of Cuyamaca College we will be connected directly to other parts of the campus. The once closed-

off courtyard will be accessible by a path leading from the new Student Center located to the north. It will become the new entrance to the horticulture facility.

Turn your visions of a welcoming and attractive space into reality. Do you have ideas for an inspiring setting where students can relax and meet friends? Best of all, your design could be the showcase of all the department has to offer.

## One Class and You May Be Hooked—Working as a Rice Foundation Intern

By Louise Parks

What started out to be one class to get my feet wet after a 20 year break from school evolved into two paid internship positions and a term as assistant to the Cuyamaca College Botanical Society (CCBS) Board. The first class that I took was Fundamentals of Ornamental Horticulture. I was hooked on the plant world and had to learn more of what had been a hobby of trial and error in my yard for years.

Unlike most who have a goal in mind when continuing their education, the only thing I knew about the OH department was that there was a class that would keep my interest. Soon I realized there were part-time positions offered to students; and that was an opportunity I couldn't pass up.

It seemed so simple. I'd work a few hours a week to gain a little experience and knowledge and get paid to support every gardener's habit - purchasing plants! Neither my family nor I had any idea what was in store for what little leisure time I had.

Before I knew it, I had two positions, as assistant manager of the Cuyamaca College Nursery and as floral field manager. My work in the floral field involved caring for the plants, maintaining the field and purchasing plants. It sounded like fun to me, though I knew all I could bring to the table was my trial and error methods - a little water, some fertilizer and the hope that the flowers would thrive.

I soon found out that Brad's fundamentals class would pay off. I killed my first plants, and I was devastated. In my defense, once I "dug a little deeper," I found they were finicky plants.

Working in the nursery meant I'd have to be somewhat knowledgeable to be able to help the customers. With only one class behind me, I suddenly felt the urgency to learn something, anything, quickly. So, I started asking a lot of

questions, and I'm sure my fellow students can attest to this. They all graciously encouraged my eagerness to learn, which is one reason I like this department so much.

Robin Rushmore, the previous floral field manager, and Viva Dorado, our new CCBS President, strongly encouraged me to take the Annuals and Perennials class next, and I begrudgingly took their advice. Enjoying the subject wasn't the issue; it was being diligent with memorization. Much to my amazement I did very well in the class!

My experience as an intern has been enjoyable and invaluable. Though the work is challenging, the camaraderie makes learning so inviting. I've spoken with other interns in the department, and they all share my gratitude for the support and experience they have obtained through this program.

I'd like to thank the Morgan Rice Foundation for its generous donations that make this excellent hands-on experience possible for so many students. I'd also like to thank Brad Monroe for all his support in helping to prepare us for careers in the green industry.

A busy day at Cuyamaca College's Ornamental Horticulture Department Nursery.

---

"I'd like to thank the  
Morgan Rice  
Foundation for its  
generous donations  
that make this  
excellent hands-on  
experience possible  
for so many  
students."

---

*Louise Parks plans to pursue a career in Landscape Design.*

## A Special Thank You...

By Cathie Robertson

We would like to extend a very special thank you to both Ellen Jennings, our former editor, and Fred Miyahara, our former layout specialist, for all of their years of dedication and service to the Urban Horticulturist Newsletter. Ellen came to us as a student who was "drafted" to write an article and somehow emerged as the editor for more than a decade. Not looking for a career in Ornamental Horticulture, Ellen just wanted to attend classes that interested her. She is happy that she continued as editor long after she stopped taking classes. She loved working with all of the interesting people from so many varied backgrounds who all shared the same passion for horticulture. Ellen retired from the San Diego City schools on June 19 and along with that, decided to pass the torch to a new editor.

Fred is a professional graphic artist who was taking classes several years ago and took one look at the newsletter and decided he could help. Ellen says that Fred's work carried the newsletter to its current level and she was happy to work with him for all these years. Fred is also passing the torch and will now be able to spend more of his volunteer time working with bonsai and in the Japanese Friendship Garden that he so enjoys.

Our new editor, Jill Horine, is also a graphic artist. Jill is originally from Maryland, and has lived in San Diego for eight years. Having attended OH classes for the past year, she is interested in Landscape Design. Notice the new layout? Jill has been hard at work this summer on the new design, and will now be responsible for both editing and layout for the Urban Horticulturist.

*Cathie is a "semi" retired professor of Child Development at Grossmont College whose passions are gardening and cooking. She is taking classes to help her garden her acre of land in the right way.*

## Moving On... Retirement Looked Appealing

By Brad Monroe, Program Coordinator

### The Bug Man Has Left the Building

After more than forty years in the horticulture industry and the last twelve years teaching the pest control class at Cuyamaca College, Don 'Smitty' Smith has retired. With the announcement of his retirement at the Scholarship Banquet, Don was presented with a plaque recognizing his contribution to the Cuyamaca College Ornamental Horticulture Program from his involvement on the initial advisory committee that helped to establish the program through his years in the classroom.

Don's last semester, with Dorcas Utter as his instructional aide, ended with a surprise gift from the students. The last class presented Don with a road sign so he could always find his way back. The road sign, marks the intersection of "Don Smith Street" and "Bug Man Blvd."

Don says he isn't going away and that he will continue his involvement in both the scholarship program and the department activities. He and his wife Ginny are planning on spending more time traveling and enjoying their many hobbies.

### Bob Scribner Moves to Borrego

Bob Scribner, long time superintendent at Bonita Golf Club, has retired from Bonita and moved with his wife, Bonnie, to their home in

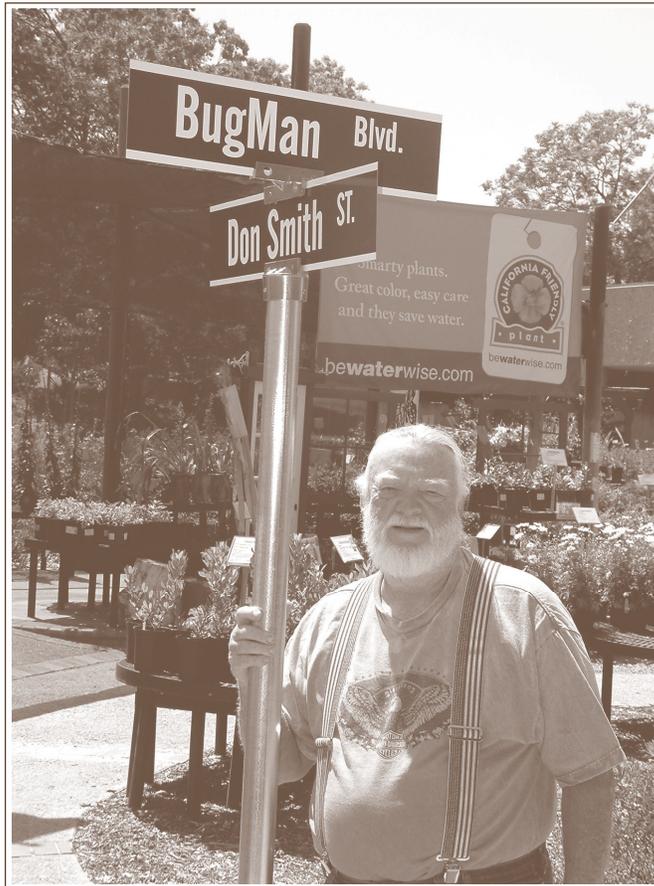

Borrego. Bob was instrumental in establishing the department's annual Aggie Open Golf Tournament. Now in its 11th year, the tournament has become a "Sold Out" event that is the department's biggest fund raising activity. In addition to supporting the department through his efforts with the tournament, both of Bob's sons have attended Cuyamaca College's Ornamental Horticulture Program.

Bob was presented a plaque at the Scholarship Banquet, and he is already hard at work lining up his replacements on the Aggie Open planning committee.

### Is There a Counselor in the House?

Dr. Marsha Fralick, the counselor assigned to the Horticulture Program for more than ten years, will be retiring in December. She was honored at the Scholarship Banquet with a plaque for her years of service to

the students in the program, especially the many students that work toward earning multiple degrees or certificates. Dr. Fralick will be retiring as a counselor but will continue to write her very successful textbook series, College & Career Success, now in its third edition. Dr. Fralick has long enjoyed a special relationship with the students of the Ornamental Horticulture Program and says the award meant a great deal to her.

Don Smith with the Street Signs presented to him as a retirement gift.

---

"Smitty's involvement on the initial advisory committee helped to establish the program."

---

## CCBS Corner

By Emiliana 'Viva' Dorado

This past year I have had the pleasure of being the 1st Vice-President for the Cuyamaca College Botanical Society (CCBS), and I am proud to have been elected as the 31st President. I bring with me fellow officers Amanda Simpson, 1st Vice-President, and Kimberly Carlisle, 2nd Vice-President, both serving their second terms. Also invaluable in their contributions to our events are Rosalee Clanton, Secretary, Janna Owens, Treasurer, Richard Lesser, Activities Coordinator, and Assistants to the Board Carol Fuller, John Herr, Kristina Michaelson, Louise Parks, Will Rountree and Merilee Watkins. I look forward to working with this group. I have had classes and worked with some of them and witnessed their dedication to the horticulture industry and the OH department.

Last year was one of the most successful years we've had at the Aggie Open, Turf Seminar,

Emiliana Viva Dorado - 31st President of the CCBS

Scholarship Banquet and Spring Garden Festival. This poses a challenge for this year's CCBS members, as I would like to strive to exceed all expectations this coming year. I have complete confidence that our capable members are more than able to assist me in doing so.

The CCBS is here for students. It is open to all students of the OH Department free of dues, and you are automatically in the CCBS if you are enrolled in an OH class. So be an active member and volunteer at one of our main events; it's a great way to network with professionals in the green industry!

The main goal of the CCBS is raising funds for our fellow student scholarships. If you would like to donate to our program, please feel free to contact one of us. You may contact us via our website through the OH home page.

---

The CCBS is open to all students of the OH Department free of dues, and you are automatically in the CCBS if you are enrolled in an OH class.

## Donation Brings First Truck

By Brad Monroe, Program Coordinator

As the old adage goes, sometimes you just have to ask. That is just what I did this spring when I mentioned to Craig Mohns of Benchmark Landscape that the department had never been able to get a truck for its own use.

Hampered by rules that do not allow the program to buy used equipment and insufficient resources to buy a new truck, I decided to reach out to the industry. Craig immediately said he thought they just might have a truck for us. Within a couple of weeks, John Mohns, President of Benchmark Landscape, called to say that they were preparing a Ford F-350 stake bed truck for donation to the program.

Along with the entire Orna-

Benchmark Landscape donates truck to the Ornamental Horticulture program.

mental Horticulture Program Family and Staff, I would like to express my sincere appreciation to John Mohns and

Benchmark Landscape for filling a need that the department has had for many years.

## 2007 Scholarship Banquet—A Celebration of Careers Beginning and Ending

By Kimberly Carlisle

This year the 26th Annual CCBS Scholarship and Awards Banquet was held on April 26th at the Handlery Hotel. Our generous sponsors - individuals, organizations and industry members - provided the funding for a record breaking number of 48 scholarships. A total of \$31,150.00 was given out to students this year!

Once again, Brad Monroe, the Cuyamaca College Botanical Society officers (30th President Stephany Hurtt, Viva Dorado, Dave Marriott, Alisa Ryon, Stephen Serieka, Stevens Tabiando, Amanda Simpson and Kimberly Carlisle) and OH Nursery staff John Thomas, Rosalee Clanton and Janna Owens did an excellent job all year working hard and organizing events to raise money for our scholarships.

Susan Butler, Class Assistant Jean Felio and floral design students created the amazing bamboo tapestries, centerpieces, napkin rings and all the other floral arrangements. The bamboo was actually harvested from a student's yard. With the help of Stevens Tabiando, arches were created and artistically tied with jute.

Many of the other botanicals used in all the arrangements were gathered from the campus and from students' homes. Days of hard work paid off with a beautiful setting and many compliments from all who attended.

CCBS President Stephany Hurtt introduced the

CCBS officers, followed by Cuyamaca College Vice President for Instruction, Cristina Chiriboga, Ph.D., who introduced the special guests.

Dean of Instruction, Division II, Albert Tacconne, Ph.D. gave us highlights of the Ornamental Horticulture program. Brad Monroe gave a special acknowledgement to three very special people:

**Dr. Marsha Fralick**, Cuyamaca College Counselor for Ornamental Horticulture. (Retiring December 2007). Dr. Fralick was a founding member of the Cuyamaca College faculty and has been the counseling liaison for the Ornamental Horticulture Program for more than 10 years.

**Robert 'Bob' Scribner**, Bonita Golf Club, founding member of the Aggie Open Golf Tournament Steering Committee (Retired March 2007). Working along with Phil Crockett, one of the Bonita Golf Club owners, Bob was instrumental in getting the Aggie Open Golf Tournament started.

**Don 'Smitty' Smith**, Cuyamaca College Adjunct Faculty Member and original member of the Ornamental Horticulture Program Industry Advisory Committee (Retired June 2007). Smitty taught here for over fifteen years and was involved in the program since its inception.

It was a very emotional and heart warming evening. We are all going to miss them in the OH department.

CCBS President, Stephany Hurtt (L) and Treasurer, Alisa Ryon

CCBS Vice President, Viva Dorado (L) and Activities Director, Amanda Simpson

---

This was a record  
breaking year,  
with 48  
scholarships  
totaling \$31,150!

La Mesa Beautiful Scholarship	Water Tech Ag Supply

## Congratulations, Scholarship Recipients!

Scholarship Recipients (listed in alphabetical order, not in order of appearance): Mary Allen, Jonathan Austin, Barbara Bender, Ray Blackman, Michael Braunstein, Kimberly Carlisle, Leticia Chavarria, Nancy Clark, Kathy Conner, Jesse Cryns, Kevin Curtiss, Juana De Avalos, Wendy DeFreitas, Nubia Del Rio, Emiliana Dorado, James Eldred, Carol Fuller, Nancy Gong, Tracey Grillo, John Herr, Stephany Hurtt, Doug Kalal, Jonathan Kelly, Lorraine Kelly, Roxanne Kim-Perez, Brian Lambert, Ellen Landfear, Richard Lesser, David Marriott, John Meile, Tristen Murray, Janna Owens, Matthew Pauchnick, C. J. Payton, Sylke Portner, Debra Lynn Priddy, Gary Radersma, Camilla Ritner, Guillermo Rodriguez, Alisa Ryan, Mark Shedenhelm, Amanda Simpson, Janice Spooner, Robin Taylor, Eliana Uretsky, Merilee Watkins, Todd Wilbur

Adjunct Faculty Member Fausto Palafox did a great job presenting the scholarships to all of the 47 recipients. The Cuyamaca College Botanical Society officers, student members and advisors wish to express their sincere gratitude and appreciation to the scholarship sponsors for the generous support they have shown throughout the year.

Scholarship winners I interviewed said that receiving a scholarship brought them pride and an acknowledgement of a job well

done. Many said it gave them a sense of relief knowing they can pay for their next classes, books, computer programs and many other school expenses.

Everyone was so grateful to their scholarship donors. "It's so nice that they are willing to help us," said one student. "I can't thank them enough."

*Kimberly Carlisle is 2nd Vice President of the CCBS.*

## Gardening Under Mediterranean Skies V—Save the Date!

By Susi Torre-Bueno, Pacific Horticultural Foundation

Gardening Under Mediterranean Skies V is scheduled for September 29-30 in San Diego. Titled Lessons In Our Gardens – San Diego, the event is sponsored by Pacific Horticulture magazine, in association with Quail Botanical Gardens, Garden Design magazine, the San Diego Horticultural Society, the Mediterranean Garden Society, and The Water Conservation Garden. The Cuyamaca College Ornamental Horticulture Department is another of the sponsors of this inspiring symposium.

The weekend celebrates plants that thrive with minimal care in San Diego's Mediterranean climate and showcases the wide range of garden possibilities in a low-water environment. It includes keynote talks at Quail, followed by visits to four excitingly different gardens for a combination tour and on-site lecture by the experts who designed them.

Participants will visit a garden with dozens of California native plant species and another designed to attract birds and butterflies all year long. A third garden, pictured here in a photo by Debra Lee Baldwin (from her book *Designing with Succulents*, Timber Press, 2007), has a world-class collection of succulents in a gracious setting. The fourth garden features a huge range of plant material – a real collector's treasure.

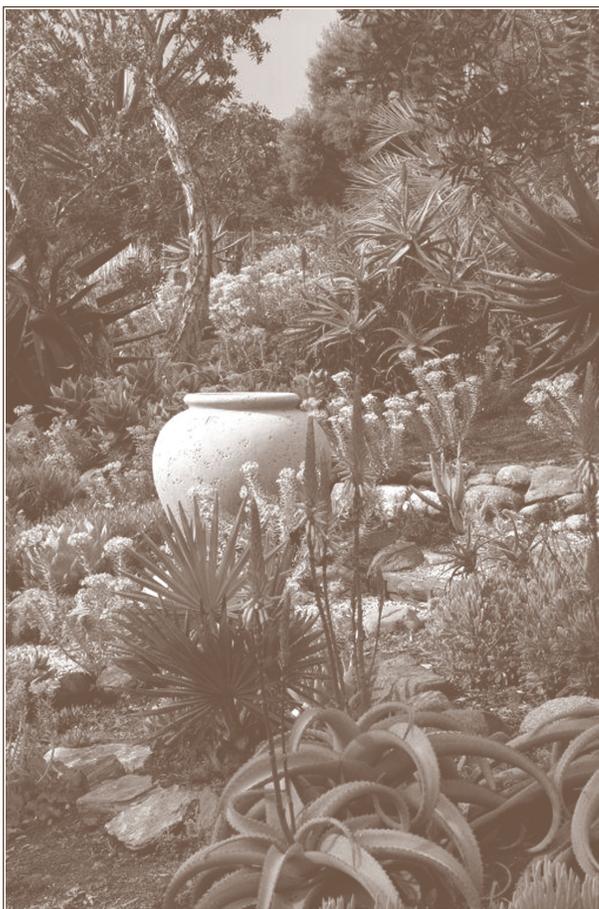

One talk at Quail, on sustainable landscaping, will be by award-winning Santa Barbara landscape architect Owen E. Dell. The second Quail talk features Shirley Kerins, an award-winning

Pasadena-based landscape architect and former curator of the Huntington Botanical Gardens herb garden, who will speak on exceptional plants for Mediterranean-climate gardens.

The event includes tours of Quail Botanical Gardens, plant sales, and book signings. A box lunch will be enjoyed each day in one of the gardens, and there will be an evening reception at Quail on Sept. 29.

On September 28 there will be two special garden tours at The Water Conservation Garden at Cuyamaca College, plus two free talks there. Michael Buckner will give a talk about and a tour of the Cactus and Succulent Garden, and Don Schultz will give a talk on "Mediterranean Landscape Style for a Low Maintenance Lifestyle."

Registration is \$155, and includes 2 lunches, a free book, and a 1-year subscription to Pacific Horticulture magazine. After Sept. 1 fees go up by \$30. To register, go to [www.sdhortsoc.org](http://www.sdhortsoc.org) or call (760) 295-7089.

## Calling All Landscape Designers!

*continued from page 1...*

All current and former students that have completed at least 9 units in the OH program are encouraged to take the challenge to re-design the courtyard. The OH Department intends to raise \$30,000 for material costs for the new courtyard design. It will be constructed by students in the program over the next several years.

The competition begins August 1, 2007, and all submissions are due to Brad Monroe by Monday, October 31, 2007. The winner will be awarded \$1,000.00, as well as a plaque

of recognition to be hung in the new patio area.

Don't miss out on this opportunity to place your mark on the college that gave you your start. The winning design will inspire and motivate countless numbers of future Cuyamaca College landscape design students for years to come. Details are available on the OH website at <http://www.cuyamaca.edu/ohweb>.
