

Career Technical Education College-wide Student Learning Outcomes

Upon completion of a sequence of CTE courses/requirements which culminate in a clearly stated educational goal, the student will be able to:

1. Apply problem-solving and critical-thinking skills required to perform effectively in their field;
2. Communicate effectively to gather and convey information;
3. Effectively and professionally complete course-work in both self-directed and cooperative-learning environments;
4. Function safely and professionally in a typical work-place environment; and
5. Identify, select, and apply technology as appropriate.
