Q1 Contact Person

Name **Kathryn Nette**
Email Address **kathryn.nette@gcccd.edu**

Q2 Department

Science & Engineering

Q3 Fiscal Year of Request **2018-2019**

Q4 Title of Request

Support Guided pathways for engineering students

Q5 Location of Request

TBD

Q6 Description Please provide a brief description of the space or items being requested.

Second engineering classroom to support engineering students; location to be determined.

Facilities Request Form

Q7 Please provide the justification for the request, discussing the following: How will the request (and associated program review goal) support the College's mission and strategic priorities? Does the request address any health, safety, or security issues? If so, please describe them. What do program or service area data indicate with regard to growth in increased demand for services? How will the request advance the continuous quality improvement of the department or work area?

The number of sections of engineering classes has increased substantially over the past 5 years (see overview at introduction of this report). We currently have one engineering lab, that is used as much as is possible. Other classes are offered in a vagabond fashion all over the college, in different places each semester. There is no place to store equipment that would augment the class experience for the students. With the planned addition of a materials lab, we are going to have additional issues with space, and the lab requires a real lab environment, not just a lecture style classroom. If we do not support the nearly 500 engineering majors that we have, we are likely to lose many of them to a competing program formed Grossmont. .

Q8 What is the estimated one-time cost of the request?

38552
