Q7 DescriptionPlease provide a brief description of the technology/software or technology project and its core goal(s).

Current equipment is old and failing. New curriculum requires updated equipment.

Page 2: Proposal Justification

Q8 Please explain how the technology or enhancement supports the strategic plan. Include information on how students will be impacted and/or employees or the college or district overall. Consider whether this would this be a district-wide implementation.Which Strategic Plan priority (or priorities) are supported by this request? To access the Strategic Plan, please click here.

Guided Student Pathways ,

Student Validation and Engagement

Q9 How does the request support the above priorities?

Students are more likely to complete the course and meet outcomes if they can do the labs.

Q10 Who would this impact? Please select all that apply.   **Students**

Q11 How would this impact the above group(s)?

If students have the necessary equipment, labs will be completed.

Q12 Does the technology support a state-wide initiative or is it a legal mandate or in support of a legal mandate?   **Yes**

Q13 If yes, please explain how the technology supports a state-wide initiative or is it a legal mandate or in support of a legal mandate?

Strong Workforce

Q14 Please be aware that projects, once approved, are typically scheduled 6 months to a year in advance. Consider the consequences if the technology/software is not implemented, upgraded or renewed.What are the consequences if the technology/software is not implemented/upgraded, or renewed? Examples: Security concerns, loss of FTES, mandates, accreditation, etc.

The current equipment is old and failing. Without current equipment the course lab will not be able to be offered.

Q15 What is the number of students impacted per semester if the technology/software is not implemented, upgraded or renewed?

30

Q16 What is your preferred time for implementation?

no tech support is required

Q17 Tell us how the data you have supports the implementation of the technology. This can be qualitative or quantitative in the form of surveys, observations, SLO or other assessment data, institutional research data or other reports and data.

We observe students unable to complete labs without the necessary equipment.
