By participating in the ZoomText Fusion license SMA program this license is eligible for an Home Use activation code for all faculty staff and Students . The Home Use program allows the license holder to distribute a Home Use ZoomText Fusion activation code for any Faculty member, employee or student for them to use on any computer that is not the property of the license holder during the SMA period. The Home Use activation code will be reauthorized with the renewal of each ZoomText Fusion license SMA

A separate authorization from Vispero is required for all Federal supply schedule additions.

Note: When changing a software product, either by adding an SMA, additional users, or upgrading to NT the product must first be at current version before the change can take place.

Note: A copy of this quote must be included to ensure that your purchase order is processed correctly and in a timely manner.

Vispero™ ships only the current released versions. Should a new product version release prior to your order being placed, a new quote will be needed.
