Page 1: For Annual Planning/Program Review Requests

Q1 Technology Plan Year   **2019-2020**

Q2 Title of Request

NetSupport License for Math Computer Lab

Q3 Location of Request

H-119

Q4 Discipline

Math

Q5 Department

Math

Q6 Contact Person

Name	**Tammi Marshall**
Email Address	**tammi.marshall@gcccd.edu**

Q7 DescriptionPlease provide a brief description of the technology/software or technology project and its core goal(s).

This software will allow instructors to block students from accessing additional websites during class when taking quizzes or exams or just to keep them from being distracted.

Page 2: Proposal Justification

Q8 Please explain how the technology or enhancement supports the strategic plan. Include information on how students will be impacted and/or employees or the college or district overall. Consider whether this would this be a district-wide implementation.Which Strategic Plan priority (or priorities) are supported by this request? To access the Strategic Plan, please click here.

Basic Skills ,
Acceleration

Student Validation and Engagement

Q9 How does the request support the above priorities?

Since so many of our classes now use the computer lab in support of OER or low cost materials, we need the ability to turn off students accessing other websites.

Q10 Who would this impact? Please select all that apply.

Students,

Employees

Q11 How would this impact the above group(s)?

Students would no longer be able to access websites during quizzes or exams. Faculty would know students cannot access other websites freeing them from worrying about any cheating taking place.

Q12 Does the technology support a state-wide initiative or is it a legal mandate or in support of a legal mandate?

No

Q13 If yes, please explain how the technology supports a state-wide initiative or is it a legal mandate or in support of a legal mandate?

Respondent skipped this question

Q14 Please be aware that projects, once approved, are typically scheduled 6 months to a year in advance. Consider the consequences if the technology/software is not implemented, upgraded or renewed.What are the consequences if the technology/software is not implemented/upgraded, or renewed? Examples: Security concerns, loss of FTES, mandates, accreditation, etc.

It will continue to be difficult for faculty to monitor what the students are doing in the computer lab.

Q15 What is the number of students impacted per semester if the technology/software is not implemented, upgraded or renewed?

1500

Q16 What is your preferred time for implementation?

ASAP but realistically by spring 2020

Q17 Tell us how the data you have supports the implementation of the technology. This can be qualitative or quantitative in the form of surveys, observations, SLO or other assessment data, institutional research data or other reports and data.

More and more of our classes are using the computer lab not just for class, but also for quizzes and exams. Therefore, it is increasingly difficult to monitor what the students are doing in class and keeping them off other websites.

Q18 Please attach any supporting data/documentation using the "Upload" button below.

Respondent skipped this question

Page 3: COST ANALYSIS

Q19 Is the request for hardware or software?

Software

Q20 Is the request for new or an upgrade to existing technology?

New (new to the campus)

Q21 Estimated or known total initial cost of request: This includes hardware and software maintenance, licences, taxes, fees, shipping, storage, etc.

$1243.60

Q22 Funding Source:

General Fund

Q23 Please attach quote using the "Upload" button below.

Grossmont-CuyamacaCCD_NS School Windows Licenses & prorated maintenance_Quote_Jan 2019.pdf (23.5KB)

Q24 Evaluationi. How do you plan to evaluate the technology after implementation?

How many instructors are using the technology and feel it is worth while having in the computer lab.

Page 4

Q25 Are you ready to submit your technology request?

Yes
