Commendations: The committee commends DSPS on a thorough overview and data analysis. DSPS has partnerships across campus to form a holistic approach when serving their student population. DSPS has used the comprehensive program review to reflect and make informed decision with the department.

Recommendations: Continue on aligning DSPS and High Tech Center and improving communication between the two locations.

Additional Comments: The committee recognizes that DSPS has to educate and support students in understanding that the Grossmont equivalent is called ARC, as well as collect accurate data to show the true depth of the services rendered by the department. The committee also acknowledges the challenges of having two locations and connecting students to all of the department's services.
