Technology Requests Program Review 2020

K-130

Our computer lab is too small to support our larger class sizes. Also, the computers are very old and slow.

26 Computers. $52,000

K101

The Electronics Classroom needs one central mounted camera to demonstrate laboratory processes.

$1500

K104

 Equip this classroom with distance education technology similar to K-114. $15,000.

K121

K-121 needs to be reoriented. An ADA specialist or instructional specialist needs to evaluate how we can arrange the seating to maximize the space, number of seats, and arrange projectors or smart screens so the projector does not shine on the instructor.

K114

- K114 Needs portable lighting for recording distance education lectures. $10,000
- The faculty lecturer needs an attached mic for sound. $140
- An additional mounted camera or camera with stand needs to be added to the back of the classroom for showing repairs of a car on a hoist. $1500
- An additional mounted camera needs to be placed in the front of the classroom showing students who are in the class. $1500

K Classroom Instructional Computers

All of our classroom computers in K101, K104, K130, K121, K122 (5) need to be upgraded. $15,000

K Laboratory Instructional Computers

The computers in the Lab need to be replaced. (12) 36,000
